

These Terms & Conditions apply to the welding, fabrication, installation, repair, and related services identified on the accompanying invoice, estimate, drawing, or written scope of work.

ACCEPTANCE AND ELECTRONIC SIGNATURE

By electronically signing this invoice, the customer acknowledges that they have reviewed and accepted the scope of work, pricing, and these Terms & Conditions. The customer agrees to conduct this transaction electronically, and the electronic signature shall constitute the customer's signature to the fullest extent permitted by applicable law.

PAYMENT AND REFUNDS

Unless otherwise agreed to in writing, all payments are final and non-refundable once the applicable work has been completed. Any additional work, modifications, materials, or services requested outside the original agreed-upon scope of work may be subject to additional charges.

ONE-YEAR WORKMANSHIP WARRANTY

ArcRunner warrants its welding and fabrication workmanship for a period of one (1) year from the date the work is completed. If, during the warranty period, a structural failure or defect occurs as a direct result of defective welding or workmanship performed by ArcRunner, ArcRunner will, at its option, repair or correct the defective workmanship at no additional labor or material cost to the customer.

This warranty applies only to work originally performed by ArcRunner and does not cover damage or failure resulting from misuse, abuse, overloading, impact, accident, improper maintenance, corrosion, environmental conditions, normal wear and tear, movement or failure of existing structures or materials, defects in materials supplied by the customer, modifications or repairs performed by others, or use of the structure for a purpose or load beyond that disclosed to ArcRunner at the time the work was performed.

The customer must notify ArcRunner of any claimed warranty issue within the one-year warranty period and provide ArcRunner a reasonable opportunity to inspect the affected work before repairs or modifications are performed by any third party. Unauthorized repairs or modifications to the affected work may void the warranty with respect to that work.

LIMITATION OF RESPONSIBILITY

Except for ArcRunner's obligations under the One-Year Workmanship Warranty above, and to the fullest extent permitted by applicable law, ArcRunner shall not be responsible for damage, deterioration, failure, injury, loss, or other issues resulting from conditions outside ArcRunner's reasonable control, including misuse, improper loading, modifications by others, failure of surrounding or existing structures, customer-supplied materials or specifications, environmental exposure, or use inconsistent with the agreed-upon purpose of the work.

ArcRunner's responsibility is limited to the welding, fabrication, installation, or other services specifically identified in the agreed-upon scope of work. ArcRunner does not assume responsibility for engineering, structural design, load calculations, code compliance, permitting, or the adequacy of customer-provided designs or specifications unless such services are specifically included in writing in the scope of work.

ENTIRE AGREEMENT AND CHANGES

This invoice, together with any written estimate, drawing, scope of work, or other document specifically incorporated into it, constitutes the agreement between ArcRunner and the customer regarding the work described. Any changes or additions to the scope of work must be agreed upon by ArcRunner and the customer.

CUSTOMER ACKNOWLEDGMENT

By signing the accompanying invoice, the customer confirms that they have read, understood, and agreed to the scope of work, pricing, and Terms & Conditions stated above.
